

Year 8 Day of the Dead

16 Lessons/ 8 Weeks

Stage	Description		
	Design	Make	Evaluate
Emerging	<p>DESIGN WORK Students will be able to understand and interpret the design brief.</p>	<p>INDEPENDENCE AND CONTROL WHEN USING THE SEWING MACHINE Students show limited knowledge and understanding of the sewing machine.</p> <p>PATTERNS AND TEMPLATES OF SKULL AND FACIAL FEATURES Students create basic templates from their skull design.</p> <p>SURFACE EMBELLISHMENT Embellishment and embroidery have been simply applied and the outcome demonstrates a low level of control.</p> <p>DECORATIVE AND FUNCTIONAL EDGE The outcome shows a low level of control little decoration.</p> <p>CONSTRUCTION & FINISHING The outcome shows a low level of accuracy when joining the front and the back of the toy together.</p>	<p>KNOWLEDGE & APPLICATION OF HEALTH & SAFETY Student lacks confidence and require supervision.</p> <p>TESTING & EVALUATING Limited annotation and evaluation of techniques, processes and own performance which is purely descriptive with no suggested improvement.</p>
Developing	<p>DESIGN WORK Students will be able to understand and interpret the design brief and use this to develop design ideas.</p>	<p>INDEPENDENCE AND CONTROL WHEN USING THE SEWING MACHINE Students show some knowledge and understanding of the sewing machine.</p> <p>PATTERNS AND TEMPLATES OF SKULL AND FACIAL FEATURES Students create templates from their skull design and begin to incorporate facial features.</p> <p>SURFACE EMBELLISHMENT Embellishment and embroidery have been applied with some sensitivity and the outcome is beginning to demonstrate some control.</p> <p>DECORATIVE AND FUNCTIONAL EDGE</p>	<p>KNOWLEDGE & APPLICATION OF HEALTH & SAFETY Student is developing confidence and works independently some of the time.</p> <p>TESTING & EVALUATING Some annotation and evaluation of techniques, processes and own performance which is purely descriptive with few suggestions for improvement.</p>

		<p>The outcome shows some level of control with some decoration.</p> <p>CONSTRUCTION & FINISHING</p> <p>The outcome shows some accuracy when joining the front and the back of the toy together.</p>	
Secure	<p>DESIGN WORK</p> <p>Students will be able to understand and interpret the design brief and produce a final design.</p>	<p>INDEPENDENCE AND CONTROL WHEN USING THE SEWING MACHINE</p> <p>Students show good knowledge and understanding of the sewing machine and are beginning to use it independently.</p> <p>PATTERNS AND TEMPLATES OF SKULL AND FACIAL FEATURES</p> <p>Students create templates from their skull design and begin to incorporate layers.</p> <p>SURFACE EMBELLISHMENT</p> <p>Embellishment and embroidery have been applied with sensitivity and the outcome demonstrates control.</p> <p>DECORATIVE AND FUNCTIONAL EDGE</p> <p>The outcome shows a good standard of control when applying surface decoration.</p> <p>CONSTRUCTION & FINISHING</p> <p>The outcome shows a good level of accuracy when joining the front and the back of the toy together.</p>	<p>KNOWLEDGE & APPLICATION OF HEALTH & SAFETY</p> <p>Student shows confidence and works independently most of the time.</p> <p>TESTING & EVALUATING</p> <p>Good annotation and evaluation of techniques, processes and own performance which is purely descriptive with good suggestions for improvement.</p>
Excellence	<p>DESIGN WORK</p> <p>Students will be able to understand and interpret the design brief and use their research to aid thoughts and developments for a fully annotated final design.</p>	<p>INDEPENDENCE AND CONTROL WHEN USING THE SEWING MACHINE</p> <p>Students show excellent knowledge and understanding of the sewing machine, using it independently and are able to problem solve.</p> <p>PATTERNS AND TEMPLATES OF SKULL AND FACIAL FEATURES</p> <p>Students create templates from their skull design using layers for decoration and aesthetic.</p> <p>SURFACE EMBELLISHMENT</p> <p>Embellishment and embroidery have been applied sensitivity and effectively and the outcome demonstrates an excellent level of control.</p> <p>DECORATIVE AND FUNCTIONAL EDGE</p>	<p>KNOWLEDGE & APPLICATION OF HEALTH & SAFETY</p> <p>Student works independently with confidence and is able to show others.</p> <p>TESTING & EVALUATING</p> <p>Detailed annotation and evaluation of all techniques, processes and own performance which is presented with suggestions for improvement.</p>

		<p>The outcome shows an excellent standard of control when applying a range of surface decoration techniques.</p> <p>CONSTRUCTION & FINISHING</p> <p>The outcome shows an excellent level of accuracy when joining the front and the back of the toy together.</p>
