

Year 7 Drawstring Bag

16 Lessons/ 8 Weeks

Stage	Description		
	Design	Make	Evaluate
Emerging	<p>DESIGN WORK Students will be able to understand and interpret the design brief.</p>	<p>COLOURING FABRICS Students show limited knowledge and understanding of colouring fabrics. Colour has been simply applied and the outcome demonstrates a low standard of control.</p> <p>INDEPENDENCE AND CONTROL WHEN USING THE SEWING MACHINE Students show limited knowledge and understanding of the sewing machine.</p> <p>SURFACE EMBELLISHMENT Embellishment and embroidery have been simply applied and the outcome demonstrates a low level of control.</p> <p>JOINING FABRIC The outcome shows a low level of accuracy with inconsistent seam allowances, stitching and finishing.</p> <p>CONSTRUCTION- HEM & TOGGLE The outcome shows a low level of accuracy with a basic construction of the bag and hem.</p>	<p>KNOWLEDGE & APPLICATION OF HEALTH & SAFETY Student lacks confidence and require supervision.</p> <p>TESTING & EVALUATING Limited annotation and evaluation of techniques, processes and own performance which is purely descriptive with no suggested improvement.</p>
Developing	<p>DESIGN WORK Students will be able to understand and interpret the design brief and use this to develop design ideas.</p>	<p>COLOURING FABRICS Students show some knowledge and understanding of colouring fabrics. Colour has been applied with some sensitivity and the outcome demonstrates a good standard of control.</p> <p>INDEPENDENCE AND CONTROL WHEN USING THE SEWING MACHINE Students show some knowledge and understanding of the sewing machine.</p> <p>SURFACE EMBELLISHMENT Embellishment and embroidery have been applied with some sensitivity and the outcome is beginning to demonstrate some control.</p>	<p>KNOWLEDGE & APPLICATION OF HEALTH & SAFETY Student is developing confidence and works independently some of the time.</p> <p>TESTING & EVALUATING Some annotation and evaluation of techniques, processes and own performance which is purely descriptive with few suggestions for improvement.</p>

		<p>JOINING FABRIC The outcome shows some level of accuracy with some consistent seam allowances, stitching and finishes.</p> <p>CONSTRUCTION- HEM & TOGGLE The outcome shows some level of accuracy with good levels of construction on either the bag or hem.</p>	
Secure	<p>DESIGN WORK Students will be able to understand and interpret the design brief and produce a final design.</p>	<p>COLOURING FABRICS Students show good knowledge and understanding of colouring fabrics. Colour has been applied thoughtfully and the outcome shows a good standard of control.</p> <p>INDEPENDENCE AND CONTROL WHEN USING THE SEWING MACHINE Students show good knowledge and understanding of the sewing machine and are beginning to use it independently.</p> <p>SURFACE EMBELLISHMENT Embellishment and embroidery have been applied with sensitivity and the outcome demonstrates control.</p> <p>JOINING FABRIC The outcome shows a good standard of accuracy with mostly consistent seam allowances, stitching and finishing.</p> <p>CONSTRUCTION- HEM & TOGGLE The outcome shows a good level of accuracy with good levels of construction on both the bag and the hem.</p>	<p>KNOWLEDGE & APPLICATION OF HEALTH & SAFETY Student shows confidence and works independently most of the time.</p> <p>TESTING & EVALUATING Good annotation and evaluation of techniques, processes and own performance which is purely descriptive with good suggestions for improvement.</p>
Excellence	<p>DESIGN WORK Students will be able to understand and interpret the design brief and use their research to aid thoughts and developments for a fully annotated final design.</p>	<p>COLOURING FABRICS Students show excellent knowledge and understanding of colouring fabrics. Colour has been applied effectively and the outcome shows an excellent standard of control.</p> <p>INDEPENDENCE AND CONTROL WHEN USING THE SEWING MACHINE Students show excellent knowledge and understanding of the sewing machine, using it independently and are able to problem solve.</p> <p>SURFACE EMBELLISHMENT</p>	<p>KNOWLEDGE & APPLICATION OF HEALTH & SAFETY Student works independently with confidence and is able to show others.</p> <p>TESTING & EVALUATING Detailed annotation and evaluation of all techniques, processes and own performance which is presented with suggestions for improvement.</p>

		<p>Embellishment and embroidery have been applied sensitively and effectively and the outcome demonstrates an excellent level of control.</p> <p>JOINING FABRIC</p> <p>The outcome demonstrates a high standard of accuracy with consistent seam allowances, stitching and finishing.</p> <p>CONSTRUCTION- HEM & TOGGLE</p> <p>The outcome shows a high standard of accuracy and an excellent level of construction.</p>
