### College targets for improving outcomes for pupil premium students

Following an improvement of 0.027 in 2018 where the gap between pupil premium and non pupil premium students was 0.139 compared to gap of 0.166 in 2017. Cohort 2018 were significantly below national APS on entry by -0.1. Therefore, they were a lower attaining year group than 2017. For 2019, the target is to eradicate the P8 gap between pupil premium and non-pupil premium students so that they make as much progress as their peers. This would see the progress of Cohort 19 rise above the national P8 figure for pupil premium students.

In relation to A8, our target is to ensure that pupil premium students meet the aspirational A8 targets that we have set them.

We want to improve overall attendance for pupil premium from the + 1% improvement in 2018. The target is to improve it by a further 2% to increase it to above the national for all students.

Our aim is to reduce the number of FSM students who are classed as persistence absentees so that it is better than the national average at 21.6%.

All pupil premium students whose prior attainment indicates that they should access academic A levels continue into a Sixth Form provision.
